

DIMENSION REASONING

SCORE / 5

| Structure

 4.0

Light and shadow separate the subject from the setting. The crop is physically coherent, and the surrounding architecture supports the portrait.

| Composition

 4.2

A frame-within-a-frame composition uses the architecture to create spatial depth. Natural perspective and clear leading lines establish a stable visual order.

| Image quality

 4.0

The subject is rendered with rich detail and faithful texture. Noise is well controlled, and the overall image quality is strong.

| Tone

 3.8

Strong side and back lighting gives the subject clear definition. Saturated colors and layered tones create a distinctive, coherent aesthetic.

| Theme and style

 3.8

The style closely fits a portrait built around light and atmosphere. Careful lighting control produces a consistent aesthetic expression.

| Emotion

 4.4

Closed eyes and a turned head convey a tranquil mood suited to the traditional setting. The expression appears natural and integrates well with the ambient light.
